

## MILANO SAN SIRO JUMPING CUP

### MILANO SAN SIRO JUMPING CUP 2022

The Great Equestrian Adventure is the summer's protagonist in Milan from June 24<sup>th</sup> until the 26<sup>th</sup>. The Snai San Siro Racecourse will host the second edition of the " 2022 Milano San Siro Jumping Cup " Csi 4\*, an extraordinary three days of show jumping competitions. RCS Sports & Events is the new partner of the event.

**Milan, April 8th 2022** – After having 'signed' the return of great international equestrianism to the Lombard capital with the first edition of the **Milano San Siro Jumping Cup** - a 3\* CSI, which was appreciated by athletes and by a continental audience, the Fei has decided to assign the 2023 European Championships to Milan and to the same organizational team - the **San Siro Horse Theatre** will host the **second edition of the three-day show jumping event**, scheduled from **June the 24<sup>th</sup> to the 26<sup>th</sup> 2022**, with an important increase in quality: in fact, **the three star Competition now has four stars**, a technical growth that will have an effect on the entire event, both from the point of view of the sports show as well as at a level of pure entertainment.

**Snaitech**, the event's organizing company, therefore confirms its commitment to equestrian sport, the city of Milan and all those who share a passion for the world of horses, with a novelty: a partnership with **RCS Sports & Events** and joint management in the 2022 edition.

While last year the races were staged behind closed doors in accordance with the pandemic protocols in force at the time, this year the **San Siro Horse Theatre**, a historical and centenary racecourse considered a national monument - entirely built in an Art Nouveau style by the architect Paolo Vietti Violi in 1920 - will open its doors to all those who love sport, great horsemanship and horses, alternating the passion for speed, evening horse races, acrobatics and show jumping competitions that will be held in the last weekend of June.

## MILANO SAN SIRO JUMPING CUP

Horsemen and riders competing, the grandstands filled with spectators in the splendid San Siro Park - set in the heart of the city while in the horizon stands Milan's skyline, a view that alternates the historical architecture of the ancient grandstands with the modern architecture of CityLife - give an idea of how much the summer in Milan with great sport and entertainment will be enriched by the three days of show jumping of the CSI 4\*.

And it will be, once again, an opportunity to reaffirm the organizer's philosophy, summed up in an effective **hashtag: #1horse1world**, the horse as the only protagonist, regardless of the sporting challenge and discipline, in a project of integration between the world of horse riding and the world of equestrianism, which was already appreciated in the first edition. And that is not all. For a long while now, the Snai San Siro racecourse has become a point of reference and socialization for citizens and tourists, thanks to an agenda of events ranging from music to fashion to food, in addition to the busy programme of equestrian sports.
